6 x 12
Cove Base

4 x 24 Bullnose

Product Performance

Breaking Strength	>450 lbf	ASTM C648
Bond Strength	>200 psi	ASTM C482
Chemical Resistance	Unaffected	ASTM C650
Frost Resistance	Resistant	ASTM C1026
Water Absorption	<0.50%	ASTM C373
Scratch Hardness	7	Mohs Scale

Wet Dynamic Coefficient of Friction Range

UPS	0.42 - 0.52	ANSI A326.3
EXT	0.60 - 0.70	ANSI A326.3

Shade & Texture Index

Earth's Tapestry has a shade variation of V3.

V1	V2	V3	V4	V1 Uniform appearance
				V2 Slight Variation
				V3 Moderate Variation
				V4 Substantial Variation

This porcelain tile product is produced with a V3 variation. While the colors and/or textures present on a single piece of tile will be indicative of the colors and/or textures to be expected on the other tiles, the amount of colors and/or texture on each piece may vary significantly. It is recommended that the range be viewed before selection.

Get Planked!

ROBBINS®

ROBBINS® Earth's Tapestry™ Porcelain Stone®

Recommended Use

Earth's Tapestry UPS is recommended for interior floors, interior walls, countertops, exterior walls, pool waterlines and full linings† in both residential and commercial applications. Earth's Tapestry UPS is not recommended for exterior horizontal surfaces or exterior paving. Earth's Tapestry EXT is recommended for exterior floors and walls in both residential and commercial applications. See Robbins.com for detailed installation instructions.

† Excludes mesh mounted mosaics.

Care and Maintenance

Regular cleaning is the best way to keep Earth's Tapestry tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Robbins products is available at Robbins.com.

Information listed here is subject to change. Please refer to Robbins.com for the latest, most accurate information.

Wet area use for Mosaics

Robbins produces the Earth's Tapestry 2 x 2 mosaics with an unpolished (UPS) finish. The ANSI A326.3 wet Dynamic COF of Earth's Tapestry is ≥ 0.42 . Their small sizes ensure frequent grout joints which provides traction and drainage. Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning.

This information is provided so that customers may make a realistic and informed decision when comparing Earth's Tapestry to other tile products in wet area environments, such as residential/commercial bathrooms, showers, and interior pool decks.

Our Warranty

Robbins guarantees that its products will meet or exceed the performance specifications outlined in ANSI A137.1-2022 and in the performance data section of the Robbins general product catalog. For complete details check our website at Robbins.com.
