Care and Maintenance

Regular cleaning is the best way to keep Urban Indulgence tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Robbins products is available at Robbins.com.

Wet area use for Mosaics

Robbins produces the Urban Indulgence 2x4 stacked mosaic and 1x6 stacked Mosaics with the Feathersoft (FST) finish. The ANSI A326.3 wet Dynamic COF of Urban Indulgence is ≥ 0.50 . Their small sizes ensure frequent grout joints which provides traction and drainage. Robbins cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning.

This information is provided so that customers may make a realistic and informed decision when comparing Urban Indulgence to other tile products in wet area environment, such as residential/commercial bathrooms, showers, and interior pool decks.
